

NEW Product Release

New Vertebral Biopsy Needle Features Exclusive Cutting Cannula

Attleboro, MA, USA; February 18, 2009 – NeedleTech Products, Inc. has introduced its new *Serratus™ Vertebral Biopsy Needle*, a specialty biopsy needle used to capture a quality vertebral core sample. Designed to be used in conjunction with the company's 11- & 13-gauge *Bonus Vertebral Access Needle*, the ergonomically-engineered *Serratus™ Vertebral Biopsy Needle* features radiolucent handles and an exclusive serratus™ cutting cannula to capture a reliable bone biopsy.

The FDA has reviewed the company's pre-market notification submission (510K) and ruled the device Class 1 exempt. The *Serratus™ Vertebral Biopsy Needle* is available for immediate release in bulk or packaged and sterile.
